

LTAAL Committee Preference Form

LTAAL Standing Committees are this Association’s “backbone” and are a key factor in the success of its initiatives and activities. They are the vehicles that facilitate and accomplish its annual goals and objectives and serve as the “building blocks” for future endeavors. Decisions made by the Board of Directors are generally based on information and recommendations made by the Committees. Accordingly, committee members are considered to be the leaders of the LTAAL of tomorrow.

Please select the committee you are interested in joining.		Select One
1	Education Committee This committee plans webinars, conferences, lunch & learns and on-demand CLE/CE.	
2	Legislative Committee This committee implements the grassroots outreach to our Alabama legislators by working with the directors to form relationships. 25% of our membership dues are allocated to this mission. The committee monitors legislation affecting our real estate industry and when needed, recommends the association sponsor bills to benefit our industry.	
3	Liaison Committee This committee facilitates relationships with the various real estate related associations in Alabama: Alabama Association of Realtors, Homebuilders of Alabama, Alabama Mortgage Professionals Association, Alabama Banking Association, Alabama Mortgage Bankers and the Probate Judge Association. This is done via support of their associations through sponsorships and attendance at their meetings.	
4	Membership Committee This committee markets our association to agents (attorneys and licensed policy signatories), agent staff, abstractors, associates (industry vendors) and underwriters to increase our membership. Especially because we are a “start-up” association, this committee is critical to the success of the association.	
5	Communication Committee This committee needs a few tech/graphic design/writers/editors to help update the website and assist with the monthly newsletter.
